FACE READING: FOR BUSINESS & PERSONAL GROWTH

WHAT IS IT & HOW DOES IT WORK?

Face Reading for Business & Personal Growth. This is not fortune telling or a psychic reading. Rather it is a scientifically based analysis tool, that looks at your facial features & bone structure to discover your underlying emotional landscape.

A Face Reading will reveal your personality & behaviour traits, showing you what changes you need to make to experience a different outcome in business & life.

BECOME EMOTIONALLY INTELLIGENT

A Face Reading is a Psychosomatic tool used by trained practitioners to understand their client quickly and effectively. The body is your compass and holds onto emotions dictating your behaviour. Awareness is the first step of to creating positive change.

"If you have the chance to attend this workshop, or work with Mel at all, I'd highly recommend it! Thanks so much for sharing your wisdom Melanie."
